

4.0 Family Portal Walkthrough

This section provides screenshots of the Family Portal interface and how it behaves for a user, with the provincial baseline Parent/Guardian security role assigned.

4.1 Pages

Page Directory

Portal users can access additional pages from the directory, if they have been added as members to the associated groups. Many schools will create a School page to communicate information to their internal school community.

Recent Activity

Displays a section for each student the user is attached to, and any attendance and grade activity related to those students. The hyperlink will take the user to the relevant screen.

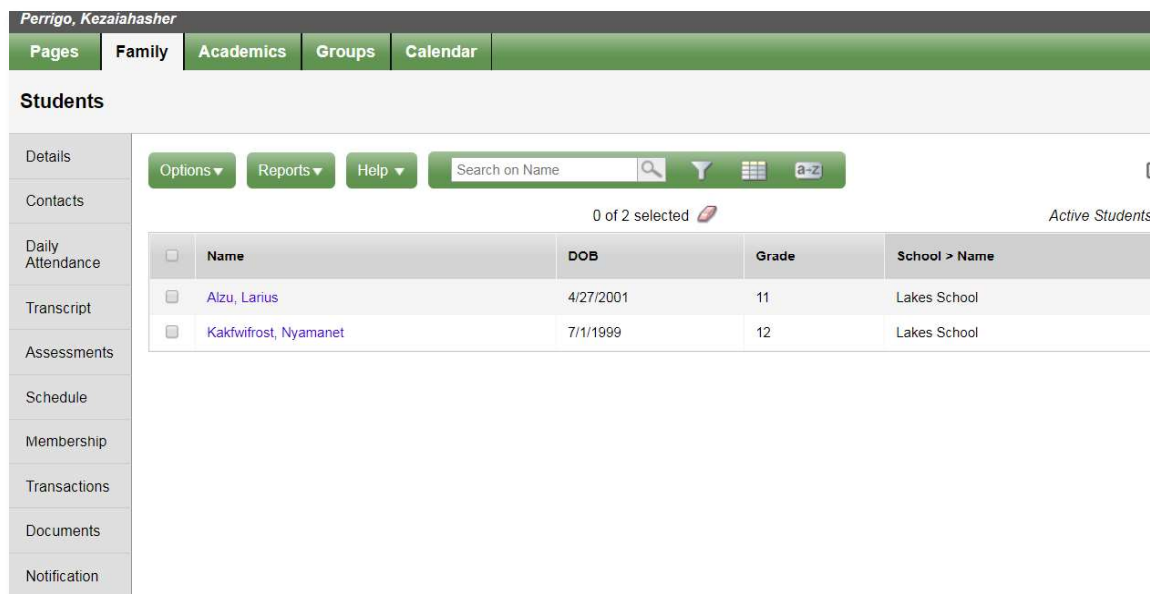

To Do

Select which student's data is being viewed. The information displayed will be determined by an assignment's Visibility Type. The **Completed** box is only checked if the student has checked the equivalent box from the Student Portal.

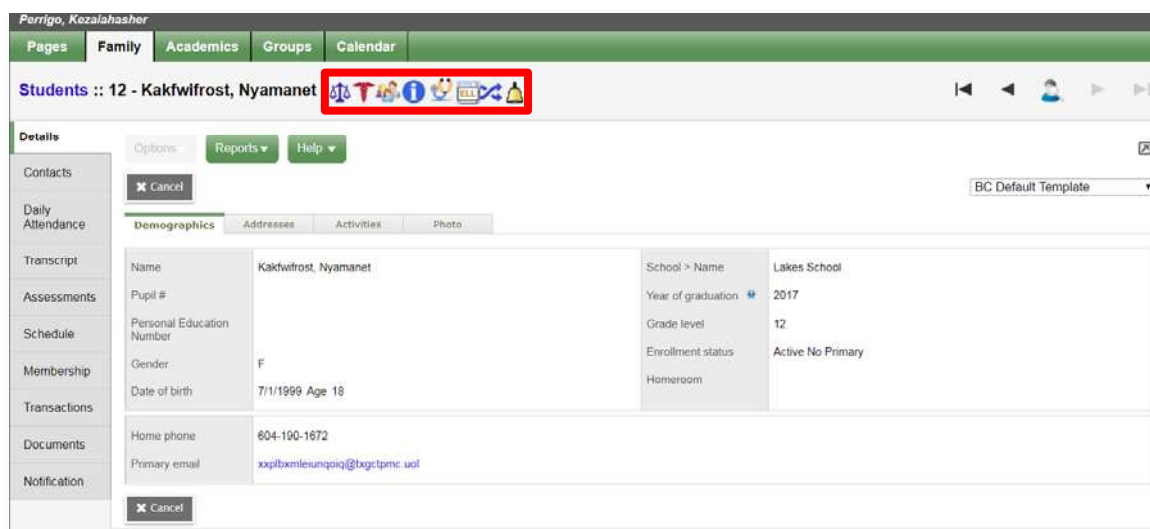

Published Reports

Displays any published reports that the user has access to. Typically, this is report cards for the students. Portal users are not able to generate their own reports on demand, and can only access Published Reports.

4.2 Family

Displays a list of all Active Students the user is connected with. (**Contact has family portal access** selected) Standard MySchoolSask/MonÉcoleSask navigation applies. All information is Read-Only

It is important to note that **ALL** Alerts display for a student, with the same detail that is seen in the School or Staff view. Ensure Division/school policy and professionalism has been followed for each alert.

4.3 Academics

The Academics Tab is where all the information from the gradebook is found.
